

Access controls worksheet

	Note(s)	Issue(s)	Recommendation(s)
Authorization /authentication	Objective: List 1-2 pieces of information that can help identify the threat: • Who caused this incident? • The event took place on 10/03/23. • When did it occur? • The user is Legal/Administrator. • What device was used? • The IP address of the computer used to log in is 152.207.255.255.	Objective: Based on your notes, list 1-2 authorization issues: • What level of access did the user have? • Robert Taylor Jr. is an administrator. • Should their account be active? • His contract ended in 2019, but his account accessed the payroll system in 2023.	Objective: Make at least 1 recommendation that could prevent this kind of incident: • Which technical, operational, or managerial controls could help? • User accounts should expire after 30 days. • Contractors should have limited access to business resources. • Enable Multi-Factor Authentication (MFA).
